PITA BROS · SUPPLY OS · WOLA

Ordering stock with Supply OS

Pre-work for Friday's training with Tushar · a 10-minute read

PITA BROS

For Sahil

Supply OS is how we order from our suppliers. **You count what's on the shelf, the app suggests how much to order, you check it and submit.** The Manager then sends it to the supplier. It runs in your phone's browser — nothing to install.

1 · THE ORDERING LOOP

Count
YOU
What's on the shelf right now.

→

Order
YOU · IN THE APP
Check the suggestion, explain big changes, submit before the deadline.

→

Check & send
MANAGER
Reviews your order and sends it to the supplier.

→

Deliver
SUPPLIER
Brings the goods and a WZ (delivery note).

→

Confirm
YOU
Check the delivery, photograph the WZ, Confirm receipt.

then the next order starts with a new count

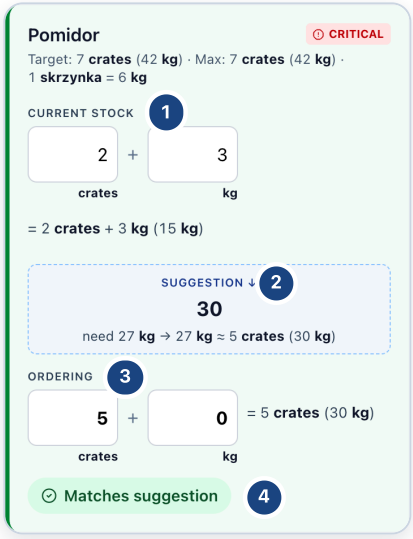

2 · HOW THE SUGGESTION WORKS

TARGET		ON THE SHELF		MISSING
42 kg	−	15 kg	=	27 kg
set for Wola		what you counted		the app works it out

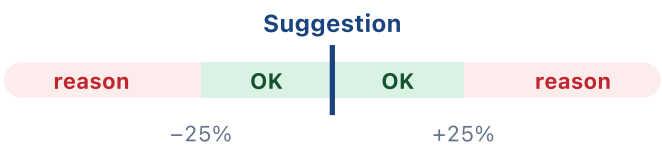

→ 5 crates — Rounded to the supplier's unit: 1 skrzynka (crate) = 6 kg, so 27 kg ≈ 5 crates. The tile shows it as 30 (kg) — every card shows its maths.

1. **Current stock** — what you counted. Pack products have two boxes: whole packs + loose units.
2. **Suggestion** — what's missing to reach the target. Tap it to copy it into Ordering.
3. **Ordering** — what you order, in the supplier's unit (crates, cartons…). Not ordering it? Leave it **blank**.
4. **Status** — green means your order matches the suggestion.

The app only suggests. You know the restaurant — you decide, and you explain big differences.

3 · WHEN THE APP ASKS YOU WHY

Example, normal product: suggestion 8 → ordering 7 or 9 is fine; 5 or 12 asks for a reason.

THE CARD TURNS RED WHEN

- you counted stock and order **more than 25%** above or below the suggestion;
- a CRITICAL product is ordered **below** the suggestion;
- stock is left blank and the order is above the **MAX**.

Red — Reason needed

Orange — Reason given

Green — Matches suggestion

Red? First check the number — a typo or the wrong unit is the usual cause. If it's right, pick the honest reason:

- Event / High traffic
- Weekend / High traffic
- Stock until next delivery
- Not enough storage space
- Packaging limitation
- Supplier short-delivers
- System suggestion is wrong
- Other reason + comment

4 · YOUR FIRST LOGIN

1 Open the app

Scan the code or type the address in your phone's browser.

pita-supply-os.vercel.app

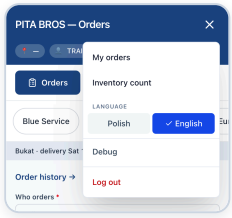

2 Enter the Wola code

Wpisz kod miejsca = enter the location code. Tushar gives it to you. Tap **Wejdź**.

3 Switch to English

Menu ≡ → **Language** → **English**. The phone remembers the code and the language.

5 · AFTER YOU TAP SUBMIT

Draft	With manager	In progress	Ordered	Completed
Saved on your phone, not sent yet.	Sent. You can still edit it.	The Manager is on it. Locked.	Sent to the supplier. Confirm it when it arrives.	Delivery confirmed. Done.

Find your orders under **History**. If the Manager changed a line you'll see "changed by manager (was 5)". Only the Manager can cancel an order.

6 · WHEN TO ORDER AT WOLA

SUPPLIER	ORDER BY 17:00 ON	DELIVERED
Bukat, Intermlecz	any day	next day (Mon–Sat)
Pago, Mory	Monday	Wednesday
Filber	Wednesday	Thursday
Everyone else	check the grey strip	

Bukat · delivery Sat 10/10 — **Order by Fri 17:00**

This grey strip under the suppliers always shows the delivery day and the deadline for the supplier you picked.

Thursday: for Bukat and Intermlecz the app reminds you to order for **3 days**. Add the extra days yourself — the suggestion doesn't.

7 · POLISH YOU'LL SEE IN THE APP

szt piece	**opak** pack	**karton** carton	**skrzynka** crate
zgrzewka shrink-wrapped pack	**blok** block	**wiadro** bucket	**paczka** packet
WZ delivery note	**Wpisz kod miejsca** enter the location code	**Wejdź** enter / log in	**Pomidor · Masło** tomato · butter

Product names stay in Polish, and so do some units — even in English mode.

GOLDEN RULES

1. **Count first,** then type.
2. **Blank = not ordering.** 0 means "deliberately none" and may ask for a reason.
3. **Red card?** Check the number, then give the honest reason.
4. **Submit before the deadline** in the grey strip.
5. **Every delivery:** Confirm receipt + a photo of the WZ.

BRING ON FRIDAY

- [ ] Your own phone, charged
- [ ] About 45 minutes with Tushar
- [ ] Your questions — anything on these two pages

We'll do a real order together, so you'll practise on the actual screens.
